PROJECTS *(Final Projects during Weiterbildung)*

2026 | BESTSELLERS. *(Full Stack E-Commerce Bookstore)*

Built a Full-Stack online Bookstore built with Next.js | filtered searching, wishlists, reviews, secure Stripe checkout anf a full admin dashboard | Data seeded from Open Library API | Prisma ORM, Stripe, Next Auth, Vercel, Resend, PostgreSQL (Neon), Next.js, TypeScript, Tailwind CSS

Prototype | Live Vercel | Subdomain | GitHub Repo

2025 | BOOKS2SHELF *(Digital Bookshelf with Google Books API)*

Created a digital Bookshelf (SPA) app with real-time book search and user authentication | Frontend: React/Vite/Tailwind CSS | Backend: Firebase (Auth/Firestore | Google Books API | Vercel Deployment

Prototype | Live Vercel | Subdomain | GitHub Repo

2025 | PORTFOLIO *(My Personal Portfolio)*

Built a responsive Portfolio first in Framer (No-Code Designing) and then developed as SPA (Single Page Application) using React, Vite and Tailwind CSS | Skills & projects showcase and contact integration | Published on Framer | Vercel Deployment

Live Framer | Live Vercel | Custom Domain | GitHub Repo

2025 | NIRVAN - VEDIC YOGA *(My First Project)*

Crafted first a beautiful High Fidelity Figma prototype (max 30 Screens) with Design System, Reusable Components and Responsive Layout and then implemented from Figma to Code ensuring pixel perfect UI to a Mobile-First responsive website using HTML, CSS, JavaScript and JSON APIs.

Prototype | Live Vercel | Subdomain | GitHub Repo | Case Study
