PROJECTS *(Final Projects during Weiterbildung)*

2026 | Books2Shelf *(Personal Digital Bookshelf)*

Created a digital Bookshelf (SPA) app with real-time book search and user authentication | Frontend: React/Vite/Tailwind CSS | Backend: Firebase (Auth/Firestore | Google Books API | Vercel Deployment

Figma Prototype Live Demo (Vercel) GitHub Repo

2025 | Books2Shelf *(Personal Digital Bookshelf)*

Created a digital Bookshelf (SPA) app with real-time book search and user authentication | Frontend: React/Vite/Tailwind CSS | Backend: Firebase (Auth/Firestore | Google Books API | Vercel Deployment

Figma Prototype Live Demo (Vercel) GitHub Repo

2025 | Portfolio *(My Personal Portfolio)*

Built a responsive Portfolio first in Framer (No-Code Designing) and then developed as SPA (Single Page Application) using React, Vite and Tailwind CSS | Skills & projects showcase and contact integration | Published on Framer | Vercel Deployment

Live Demo (Framer) Live Demo (Vercel) arefsaboor.com

2025 | NIRVAN - Vedic Yoga *(My First Project)*

Crafted first a beautiful High Fidelity Figma prototype (max 30 Screens) with Design System, Reusable Components and Responsive Layout and then implemented from Figma to Code ensuring pixel perfect UI to a Mobile-First responsive website using HTML, CSS, JavaScript and JSON APIs.
